

Visit by Director of Road and Bridge Development Engineering (DRBE), Ministry of Public Works and Housing of Indonesia

~JICA “Project for the Improvement of Regional Roads Governance, Indonesia”

Training in Japan~

On Monday, November 13, 2023, NILIM conducted a training in Japan for the “Project for the Improvement of Regional Roads Governance, Indonesia” at the request of JICA, and the Director of Road and Bridge Development Engineering (DRBE), Ministry of Public Works and Housing of Indonesia visited us.

During the courtesy visit, we exchanged opinions on the current status and challenges of bridges and tunnels in Indonesia, as well as research cooperation.

Exchange of opinions

They visited three kinds of facilities, "Test Track", "Full-scale tunnel experiment facility", and "30MN large-scale universal testing machine".
